Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Response to Amendment and Arguments

1. In regards to Applicant's amendment and arguments, filed 12/30/2008, concerning claims 1-50, Examiner will not address these issues at this time.
2. Independent claims 1, 11, 21, 32, 37, 41, and 50 have each been amended with limitations, which change the scope of the claims. Therefore, the newly added limitations must also be taken into consideration when considering Applicant's current arguments. The claims now include the limitation "with the computer including a PBX Messaging Integration Client (PMIC) capable of placing and answering PBX calls without a PBX phone, routing incoming calls directed to PBX extensions to other devices, forwarding calls away from PBX phones to other devices, and placing calls on hold..." These limitations were added to the claims after the Final Rejection, therefore requiring further consideration and/or search by the Examiner.
